Objection:

Shortly into the summer of 2006 (approximately 4 years after the vehicle purchase and well within your limits for inclusion of a covered repair in the notice provided) the air

conditioner failed. I drove around for the next two hot long summers without air conditioning only to find from the class action suit that I was not the only one and that this may eventually be compensated by Honda. To sell the vehicle I had no choice but to replace the air conditioner or absorb a further loss at the time of sale of the vehicle.

The compensation should be provided from the time of failure as stated by the owner and not from the time of repair since these are not always the same.

CLAIM FORM INSTRUCTIONS

Compressor Damage is defined as damage to the compressor and associated air conditioning system parts of any vehicle that is part of the 2002 - 2004 Honda CR-V Sub-Class, which was caused as a result of the failure of the internal components of the compressor and/or the compressor clutch. Damage to the compressor from any other cause, such as front-end collisions, is NOT included in this definition.

If any CR-V Sub-Class Member sustained an out-of-pocket expense for Compressor Damage within the original 3-year/36,000-mile warranty that was not already covered under warranty, such expense shall be reimbursed pursuant to the terms of that warranty, notwithstanding that the CR-V Sub-Class Member did not originally pursue a warranty claim in the manner required by the warranty.

Honda will partially reimburse any out-of-pocket expense incurred by members of the CR-V Sub-Class to repair Compressor Damage where the repairs were or are performed for damage outside of the new vehicle warranty, but occurring within 8 years/96,000 miles from the date of purchase.

The specific reimbursement percentages for out-of-pocket expenses incurred by members of the CR-V Sub-Class to repair Compressor Damage are as follows:

- Year 3/36,000 miles – 100% reimbursement (original vehicle warranty)
- Year 4/48,000 miles – 80% reimbursement
- Year 5/60,000 miles – 60% reimbursement
- Year 6/72,000 miles – 30% reimbursement
- Year 7/84,000 miles – 15% reimbursement
- Year 8/96,000 miles – 15% reimbursement

These benefits expire at the earlier of the time or mileage thresholds.

Settlement class members must submit a claim form with supporting documentation in order to be reimbursed for Compressor Damage. The claim form must be returned to the Alin Litigation Settlement Administrator anytime between now and 90 days after the Effective Date of the settlement, as defined in the settlement agreement. You can monitor the settlement website at www.AlinLitigation.com to determine the final deadline for submitting claims, but the deadline will be no earlier than July 24, 2012.
